

CATTLE LINE

COMPLEMENTARY AND MINERAL FEED FOR BEEF CATTLE

Containing yeasts produced with innovative technology.

Vitasol produces irradiated brewer's yeast
for over 75 years.

PRODUCTS

FUNCTION

PRIMOSALE BASE - OP001

mineral feed specific used to correct calcium deficiency and to integrate diets rich in cereal mix and/or related by-products.

PRIMOSALE STANDARD UNIVERSALE - OP002

complementary mineral feed indicated to integrate feed rations for cattle, pigs and rural livestock animals. It is used to correct diets with low calcium levels or rich in silage and grass hay. Useful to prevent rickets and reduced growth.

PRIMOSALE TAMPONE - PS048

complementary mineral feed used to prevent and correct ruminal acidosis and lameness caused by this disease.

CARN-E - NB040

complementary mineral feed containing macro minerals and buffer necessary for fattening beef. This product contains two different live yeast strains and *Aspergillus Oryzae* to improve diet digestibility and stabilize ruminal pH.

BEEF QUALITY - NB157

complementary mineral feed containing a high amount of antioxidants, allows to extend the meat shelf. This product containing two different live yeast strains and *Aspergillus Oryzae* to improve diet digestibility and stabilize ruminal pH.

QUALITY MEAT - NB173

complementary mineral feed having basic integration with macro and micro minerals and vitamins for beef cattle.

PIEMONTE MIX - NB188

mineral feed specific for suckler cows and calves with a high amount of vitamin E and organic selenium to prevent pregnancy diseases and to support calves' immunity system.

CALCOLOUT - NB228

complementary dietetic mineral feed for beef cattle with a high amount of ammonium chloride to prevent urinary calculi.

VITASOL COMPLEX BEEF CATTLE - VC007

complementary feed for growing and fattening cattle with inactive brewer's yeast, vitamins and trace elements. This product has to be associate with macro mineral such as calcium, phosphorus, sodium and magnesium.

VITASOL COMPLEX VIGORLIEVIT - VC022

complementary feed containing two different live yeast strains and *Aspergillus Oryzae* to improve diet digestibility and stabilize rumen microflora and fermentation.

VITASOL COMPLEX VITEPAT powder and pellet - VC034

complementary feed used to support liver functionality, decreasing damages due to high starch level diet or moldy and/or badly preserved feed.

VITASOL COMPLEX SUPER 2 - VC035

complementary feed containing irradiated and non-irradiated yeasts mix, vitamin B12 and methionine. It is used to improve diet digestibility and liver functionality.

VITASOLCOMPLEX FATTENING PLUS - VC166

complementary feed for different breed cattle with a high vitamins content such as vitamin A, E, PP that improves growing index and meat quality. This product has to be associate with macro mineral such as calcium, phosphorus, sodium and magnesium.

VITASOL COMPLEX SUPERVIVO - VC184

complementary feed containing two live yeast strains able to improve diet digestibility, performances and nutrients utilization.
