

# PIGS LINE

## COMPLEMENTARY AND MINERAL FEED FOR SWINE

Containing yeasts produced with innovative technology.

**Vitasol produces irradiated brewer's yeast  
for over 75 years.**

## PRODUCTS

## FUNCTION

<b>PRIMOSALE BASE - OP001</b>	mineral feed specific used to correct calcium deficiency and to integrate diets rich in cereal mix and/or related by-products.
<b>PRIMOSALE STANDARD UNIVERSALE - OP002</b>	complementary mineral feed indicated to integrate feed rations for cattle, pigs and rural livestock animals. It is used to correct diets with low calcium levels or rich in silage and grass hay. Useful to prevent rickets and reduced growth.
<b>GOOD PIGLETS - NS006</b>	complementary mineral feed indicated for piglets from 0 to 3 months old, specially indicated to control post weaning diarrhea. This product contains acidifiers, enzyme pool and live yeast strain which improve diet digestibility and has positive effects on intestinal microflora.
<b>TOXIKILL - NB375</b>	complementary mineral feed with several binders (bentonite for aflatoxin B1, clinoptilolite) and preservatives.
<b>BIOSOL ALM RIPRO BIS - NS065</b>	premix for breeder pigs, enrich with beta-carotene, high vitamin E levels with antioxidant effects and biotin to prevent podal diseases.
<b>VITASOL COMPLEX GROWER PIGS - VC009</b>	complementary feed rich in vitamins and trace elements used to prevent nutritional deficiencies, stimulate ingestion and increase performances.
<b>VITASOL COMPLEX SOWS AND BOARS - VC023</b>	complementary dietetic and mineral feed specifically indicated to solve fertility problems connected to beta-carotene and folic acid deficiencies.
<b>VITASOL COMPLEX GROWERS AND FINISHERS - VC027</b>	complementary feed for growing and finishing phase, including all vitamins and trace elements to satisfy nutrient requirements. It also contains high quantity of choline and vitamins PP for optimal nutrients utilization.
<b>VITASOL COMPLEX VITEPAT flour and pellet - VC034</b>	complementary feed used to stimulate liver functionality, decrease damages caused by high starch level diet or moldy and/or badly preserved feed.
<b>VITASOL COMPLEX SUPER 2 - VC035</b>	complementary feed containing irradiated and non-irradiated yeasts mix, vitamin B12 and methionine. It is used to improve diet digestibility and liver functionality.
<b>VITASOL COMPLEX SUPER 5 - VC053</b>	complementary feed based on irradiated and non-irradiated yeasts, enriched with yeast cultures having an enzymatic support, specific for pigs. This enzymatic integration improves nutrient digestibility and enhance animals performance.
<b>BIOSOL POLO 2,5 LYS - NS097</b>	complementary mineral feed for growing and fattening phases: its lysine high content improves feed conversion ratio.
<b>BIOSOL FLYING PORCS - NS102</b>	complementary mineral feed containing several acidifiers, specifically indicated to control post weaning diarrhea and other diseases such as necrotic enteritis and ileitis in the following breeding phases.
<b>ENZISOL</b>	natural product based on enzymatic support and seaweeds with natural antibacterial activity, studied to treat both sewage sludge and manure. This natural product rapidly degrades organic matter residues, improves natural litter fermentation, reducing ammonia and smells emission from livestock manure.
